- Ever wanted more control over the data in your i-device than iTunes provides? Try the free iPhone Configuration Utility from Apple. While it doesn't offer nearly as many options as Phone View (coming up), it is free and does provide lots of useful information like this: **-CLICK-** and this **-CLICK-**
- Phone View, \$30 from ECAMM Network, is a much more comprehensive tool for mining data on your iPhone. You can **-CLICK-** look
