“Thank you again for organizing such a wonderful trip. It’s rare to find someone who keeps up with all the details of a trip so that we don’t have to. The courses were great. (The speakers) were spectacular and exuded energy to all of us attending. Thanks for the memories and knowledge.”

**Robert Lemke, D.D.S., M.D.**  
<LEMKE@uthscsa.edu>

“The selection of speakers was excellent. This was a very diverse group and I was amazed at the feeling of community that permeated the atmosphere. I will recommend this experience to anyone that has the opportunity to attend. The contacts and information are priceless.”

“Great scientific education experience with top shelf presenters, exotic locations and superb facilities. Food for the soul.”

**Stephanie Martin**  
<stephaniemartin@optusnet.com.au>

“It was fabulous! I can’t believe I stood in places I have only seen in history and/or art books and never thought I would ever see in real life. I also treasure the ability to talk to speakers well known in their fields. They aren’t just a face on a book cover or in a magazine, I’ve actually talked with these people and been able to ask them my questions.”

“Remarkably well done: proper level of intellectual challenge....a brain tickling experience! well paced interesting ports of call ...unbelievable! Well Done!”

**Paul Allen**  
<pokyalen@hotmail.com>

“We just keep coming back! Baltic Blast was our fourth (Insight) Cruise. The main attraction to me has been the high quality of instructors made available for the topics I have an interest. I have been attending various Photoshop seminars for 6 years, but have found the particular close contact and communication interchange with the (Insight) Cruises instructors to have been the most valuable experience in my developing understanding of Photoshop.”

**Tom Grollman, M.D.**  
<grollman@verizon.net>

“You all are fantastic! I’m not sure when I’ve traveled with a group that does all these nice “extras” AFTER the trip ... no wonder you all have so many repeat travelers. In building and cultivating this community of like-minded people, no doubt many of us will sign up for future trips. Thanks!”  
With admiration,”

“Steve and I thoroughly enjoyed the MacMania11 trip!! Steve has been reading about MacMania since day 1... and now we've done it. Steve attended EVERY class ... and was impressed. That says a lot to me as he's a tough audience. The InSight Cruises advance communications were excellent and Holland America is classy. Thank-you for all your wise efforts and hard work. We will highly recommend InSight Cruises to our social circle.”

**Sandy Dvorsky**

<nngnut@aol.com>

“I have taken my family of up to eight people on four MacMania cruises so far. I have never spent money or time more wisely. The cultural and technical learning on these cruises is beyond what I'd hoped for. The people we've met along the way are unforgettable. The Mac pros (speakers) are simply great!”

“A totally wonderful experience. What a treat to learn about something interesting and then having the time to think about it and ask the experts about questions that come up. Great fascinating fun.”

**Aileen Hohmann**

<aihohmann@comcast.net>

“This cruise has caused us to lose interest in the standard cruise. It was very well organized. We were delighted to experience dinner with new people and to be able to interact with the speakers at dinner.”

**Harold Newton**

<haroldnewton@att.net>

“I'm writing to tell you how much Lisa and I enjoyed [the conference]; the combining of the cruise and classes really did seem to give the best of both worlds as far as we were concerned. Whilst we're describing it as the event of a lifetime to our friends, we might well come on another (Insight) Cruise in a year or two!” [Editor's note: they did!]

*“Stimulating travel, stimulating learning, and stimulating social interaction.”*

"This cruise and the chess classes were definitely a word class event. The choice of the grandmasters (speakers) was great as each had a different personality and gave a specific perspective of the game."

"The talks were quite extraordinary. The speakers made complex subjects understandable for non-specialists in their fields—and that is no mean feat."

**Maureen Bull**  
<mbullatilu@msn.com>

"Oscar Wilde has somewhere remarked, 'You can't reason a man out of a position he has not reasoned himself into'. I confess I have reasoned myself into believing that Chess Moves was not only good for chess instruction, but good for the soul as well. The details were first rate. (The chess grandmasters) provided excellent instruction. I look forward to other such adventures."

**L. Ralph Hennings, Ph.D.**
