

## Welcome to our interactive map of Aruba

In this eBrochure you will find where our cities, hotels, and attractions are located just by clicking on the menus below...

# 1. California Lighthouse

The old stone California lighthouse is within sight of the Tierra del Sol golf course and is popularly named for the off-shore wreck of the famous ship, "California."

Perched on a high seaside elevation, the lighthouse has become one of Aruba's scenic trademarks and offers a picture perfect view of the island's western coastline of sandy beaches.

## 2. Tierra Del Sol Golf Course

At the island's northwest tip is Aruba's first world-class golf course. The 18-hole, par-71 course was designed by Robert Trent Jones II to take full advantage of Aruba's unique and rugged natural surroundings. From the wild, green parakeets on the organ-pipe cactus to the lizards and salamanders that bask on rock formations, the wildlife of Tierra del Sol has become an attraction in its own right.

### 3. Alto Vista Chapel

The picturesque Chapel of Alto Vista, the first chapel of Aruba, exudes tranquility on its dramatic setting above the sea. The chapel was built by the Indians and Spanish and is often referred to as the Pilgrim's Church. The bright yellow chapel is reached by a winding road lined with white crosses marking the stations of the cross. For local Arubans especially, it is a special place for peace and contemplation.

## 4. Bushiribana Gold Smelter

On the northern coast, midway down the island, lie the abandoned gold mines that were the center of Aruba's gold rush during the nineteenth century. In 1824, gold was finally discovered in Aruba, and eventually, the industry produced more than 3 million pounds of gold.

# 5. Natural Bridge

The island's most photographed attraction is located on the north east coast. It's called the Natural Bridge because it rises 25 feet above the sea and spans a hundred feet of rock-strewn waters carved out of solid coral by centuries of relentless pounding by the Atlantic surf.

# 6. Andicuri

Popular spot for board and body surfing.

Diving from the rock cliffs into the protected pool of ocean seawater is the main reason why so many venture here off the beaten path.
